A pure experience. Get to know our electric compact SUV.

Up to **500 km**

Electric range*

4.9 s

Acceleration (0-100 km/h)

300 kW

Power

27 min

Fast charge 10-80%**

Fewer charging minutes, more kilometres

Our next generation electric powertrains increase the capacity of your XC40 Recharge, giving you longer range and quicker DC fast charging.

No compromises

The XC40 Recharge doesn't force you to choose between power and responsible

Rear-wheel agility

The XC40 Recharge is available with a single or twin motor powertrain. The now rear-wheel drive single powertrain enhances the power and agility of the car, making your ride even more enjoyable.

*The figures are preliminary and derived from estimates and calculations performed by Volvo Cars for XC40 Recharge twin which is not carried out on every individual vehicle sold by Volvo and these outcomes are not guaranteed. The real-life driving range and energy consumption achieved under real conditions varies depending on factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition and accessories fitted, means in the real world the range you experience can differ from that advertised. Advertised figures are meant for comparison purposes. Vehicle certification and WLTP results are pending. Open full [Specifications](#) to review other powertrain options.

**When charged using fast charging DC up to 200 kW under optimal charging conditions. Charging times can vary and are dependent on factors such as outdoor temperature, current battery temperature, charging equipment, battery condition and car condition. Vehicle certification pending. Fast charging cable not provided with the car. Charging times with standard charging can vary significantly.

Discover inner harmony. Contemporary design and more recycled materials characterise every detail of the XC40 Recharge pure electric.
